Last week, I traveled to Huntsville, AL to attend a Focus On America event featuring some tremendous Patriots who are speaking out against the COVID-19 “vaccines”.

They included Lt. Col. Teresa Long, Lt. Col. David “T-bone” Trombly, Dr. James Thorp, Clay Parikh, Prof. David Clements, Dr. Peter McCullough, and the guest featured in this interview, trade embalmer Richard Hirschman.

Hirschman had a role in the hit-documentary “Died Suddenly” was released in late 2022 and has garnered almost 19 million views. It is a fascinating account of anomalies being found in deceased humans since the roll-out of these experimental vaccines and more.

The Gateway Pundit reported on these anomalous “white fibrous clots” back in September 2022 but in this interview, we get into some of the details of what Hirschman has seen, the astronomical numbers he’s seeing these issues in, and much more.
